

SMART SENSOR AR SERIES TEMPERATURE/HUMIDITY METER

Applications:

To measure environmental temperature/humidity.
Ideal for temperature/humidity measurement of
warehouse, control room, air conditioned room, etc.

AR837

Features:

- Large LCD dynamic display;
- Temperature/Humidity dual display;
- MAX/MIN reading; battery capacity indicator;
- LCD display with backlight;
- Data-hold

Technical Data:

| | |
|--------------------------------|-----------------------------|
| Temperature measurement range: | -10°C - 50°C (32°F - 104°F) |
| Humidity measurement range: | 5% - 98% RH |
| Accuracy: | +/- 1°C / +/-3.5% RH |
| Resolution: | 0.1°C / 0.1% RH |
| Max/Min reading: | Yes |
| Data hold: | Yes |

AR827

AR827 temperature
/humidity meter

Features:

- Large LCD dynamic display;
- Battery capacity indicator;
- Data-hold

Technical Data:

| | |
|--------------------------------|-----------------------------|
| Temperature measurement range: | -10°C - 50°C (32°F - 104°F) |
| Humidity measurement range: | 10% - 95% RH |
| Accuracy: | +/- 1°C / +/-3% RH |
| Resolution: | 1°C / 1% RH |
| Max/Min reading: | None |
| Data hold: | Yes |
